

# KILN YARD

## HIRE RATES

Kilns are only available to hire as a whole kiln to one named contact who will also be responsible for payment in full. Any individual requiring less than a whole kiln will need to join with other individuals and apply to hire as a group. Sub-division of kiln space and therefore cost is the responsibility of the group/collective hiring and is not managed by Yorkshire Artspace.

### HIRE RATES (SUPPORTED FIRING):

	Small LPG Kiln	Large LPG Kiln
capacity	15 cu/ft	60 cu/ft
dimensions	27w x 27h x 33d inches +4 inches at apex of arch	45w x 45h x 48d inches +6 inches at apex of arch
	Cost inc VAT	Cost inc VAT
Full Kiln Includes loading, firing & unpacking	<b>£645</b>	<b>£930</b>

### INDICATIVE BREAKDOWN of costs per person for multiple users sharing:

	Small Kiln Cost inc VAT	Large Kiln Cost inc VAT

Dimensions	7.5 cu/ft	30 cu/ft
Quarter kiln / layer (x4 people sharing)	<b>£161.25 pp</b>	<b>£232.50 pp</b>
Dimensions	Layer = 18"x24" up to max height 6.5"	Layer = 36"x40" up to max height 11"
Per shelf	<b>£80.65 pp</b> (up to 8 people sharing)	<b>£29 pp</b> (up to 32 people sharing)
Dimensions	Shelf = 18"x12" up to max height of 6.5"	Shelf = 18"x10" up to max height of 11"

## NOTES

Shelf space quoted above is based on an average pack of x4 layers and that is what dictates the maximum height specified. Although greater height can be achieved on top shelf at the apex curve in roof (+4" in small kiln and +6" in large kiln). More or fewer layers can be introduced to accommodate different heights of work but please factor this into your calculations.

All of the above costs are based on an average LPG consumption and supported firing by a Kiln Technician. If your preferred firing schedule increases gas consumption then you may be charged for any additional LPG used.

Our Kiln Technicians will manage the pack/loading of the kiln so, if hiring as a group, please make sure to notify at time of booking if work exceeds the height stated for an average 4 layer pack. Our technicians cannot be held responsible for exclusion of any work submitted that exceeds the total capacity of the kiln.

## HIRE RATES (INDEPENDENT FIRING\*)

	Small LPG Kiln	Large LPG Kiln
capacity	15 cu/ft	60 cu/ft
dimensions	27w x 27h x 33d inches +4 inches at apex of arch	45w x 45h x 48d inches +6 inches at apex of arch
	Cost inc VAT	Cost inc VAT
